Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the State was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey the ideas of what suffered my physician and I told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1904, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and my limbs were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm the swelling began to subside and in a few days I was able to walk. I consider that I am entirely cured. For further facts see Dr. J. Jas. Wm. Douglass."

WE'RE FOR AMERICA! AMERICANS!

The Legislature passed and Governor BRADLEY approved a bill authorizing the state to issue \$500,000 in bonds to pay some of its old Democratic debts. Judge CANTILL of Frankfort at the first chance declared the bill "unconstitutional." And now comes the Court of Appeals and declares Judge CANTILL's declaration "unconstitutional." In other words, that the bill is all right, and that the bonds will be issued and the state's honest debts be paid.

The New York Sun calls attention to the fact that the desire to acquire the Sandwich Islands as a part of United States territory is no new thing in this country, either in the Cleveland or McKinley Administration. The Sun shows that as long ago as 1812, when DANIEL WEBSTER was Secretary of State under President TILLEY, it was urged that because five-sixths of all the vessels that annually visited the Sandwich Islands were American vessels, and that because the United States was more interested in the fate of the islands and of their Government than any other Nation, the islands ought to become a part of the United States.

Twelve years later, WILLIAM L. MARCY, Secretary of State under President PIERCE, with the full support of the Cabinet, instructed Commissioner D. L. DUNTON to negotiate with the Hawaiian Government a treaty for bringing the islands into the Union as a Territory. MARCY was an enthusiastic advocate of the annexation and he authorized Commissioner GARRIS to pay \$100,000 as a pension to the King and his chiefs as a part of the annexation agreement. The plan finally fell through, because it was insisted that Hawaii should be admitted as a state and because the pensions asked for were increased to \$300,000. All this occurred when the United States interests on the Pacific coast, compared with what they are now, were insignificant, when there was no point that the Government cared to guard particularly.

The question of annexation came up again in 1898 under President JOHNSON's Administration, when the President said: "The treaty negotiated by Secretary SAWARD would prove a guaranty of the good will and forbearance of all Nations, until the people of the islands shed of themselves at no distant day voluntarily any admission to the Union."

Secretary of State FISH, under General GRANT, described the Sandwich Islands as an outpost commanding the whole of our possessions on the Pacific and he was in favor of annexation. Still later Secretary BLAINE declared that the Hawaiian Islands held the strategic control of the North Pacific and that their early possession by the United States was the true American policy. For more than half a century, save and except during the one American Administration of President CLEVELAND, the settled policy in this country, whether Democratic or Republican, has been in favor of the annexation of the islands which Captain COOK discovered.

THE Ohio Republican State Convention—As THE LEDGER said it would it "didn't do a thing" to METER CLEVELAND's application of the Civil Service Rules. Out and away with the disgraced, non-American brand!

We don't know whether Mr. CLEVELAND may be down in Virginia at present or no, but he is down pretty low in the estimation of the great majority of the people who cast their votes for him as President for two terms, else we are mistaken.

THE Republican State Convention of Ohio, the first held since the inauguration of President McKINLEY, thus pays its respects to the Civil Service fraud perpetrated by METER CLEVELAND:

"We denounce the violation of the spirit of the Civil Service Act by President CLEVELAND in those orders which extended its operation beyond its purpose and intent, and demand such revocation of orders, or modification of the law, as will accomplish its manifest purpose."

Ohio has led a trump card and all the other states will like honest players, "follow suit."

The Civil Service, as administered by CLEVELAND, was a means of getting Republicans out of office and putting Democrats in—and keeping them there.

DUTY ON HIDES.

Republican Caucus Sustains the Action of the Committee.

The Committee Reversed the Duties on Watches and Watch Jewels.

About Fifty Cattle Appointed For the Month of June. The committee on the late O. G. Sheridan-Stewart L. Woodford later this morning.

WASHINGTON, June 23.—Stewart L. Woodford had an interview with the president Thursday respecting his mission in Spain. He will not leave for Madrid before the latter part of July and will spend the time from now on in acquiring an accurate knowledge of the present state of our relations with Spain. Mr. Cabell is still in Washington and probably will confer with Mr. Woodford.

About 50 cadets at the United States military academy have been appointed for the next class year, among them being Philip H. Sheridan, son of the late Gen. Phil Sheridan, who is appointed a cadet at large.

The president has signed the act amending the act providing for the entry of lands in Greer county, Oklahoma, so as to extend until the 1st of January next the time allowed settlers to perfect their entries.

WASHINGTON, June 23.—The republican senators decided to caucus Thursday night, by a vote of 22 to 11, to sustain the action of the finance committee in placing a duty upon hides, but did not pass upon the question of the amount of the duty to be imposed.

The committee was also sustained in the rate upon imported wrapper tobacco. The only disputed questions considered were watches and watch jewels and upon these the finance committee was reversed, the house rates being accepted on watches and watch jewels being made free.

The caucus was held in the marble room of the senate and was well attended.

The debate on the tobacco schedule was confined to brief speeches by Senators Hawley and Fairbanks. The finance committee had originally fixed the rate on untanned wrapper tobacco at \$1.50 per pound, in opposition to the house rate of 42 cents.

The representatives the leaf growers immediately began a contention for the retention of the house rate, which was resisted by the smaller manufacturers, particularly of the western states. The finance committee yielded to the growers to the extent of advancing the rate to \$1.75.

The caucus decided without division to stand by the compromise rate of \$1.75.

WASHINGTON, June 23.—Representative Andrew Dean Cook, of Chicago, dropped dead at Cook's tobacco store, morning at his hotel, the Cochran, of heart disease. Mr. Cook was a native of Iowa and 44 years old. He was elected to the Fifty-fourth congress from the "Northside," or Sixth Illinois district, and was re-elected to the present congress.

WASHINGTON, June 23.—The gist of the protest of Japan to Hawaiian annexation, which was read to the senate committee on foreign relations, is as follows:

The acquisition of Hawaii by annexation to the United States would deprive the resident Japanese in the islands of the rights to which they are entitled under the present treaty with Hawaii. At present there are 20,000 Japanese in the islands, with large property rights and under the present conditions they are entitled to become citizens of the United States.

In case of annexation these Japanese could not become citizens of the United States as the decisions of the United States circuit courts have the effect that no Asiatic can become a citizen of the United States. By annexation the Japanese non-resident in Hawaii would be subject to laws and taxes that might be adopted by the United States. They would lose their right to become citizens and the large interests owned by Japanese citizens in the islands would be greatly jeopardized, therefore the Japanese government must firmly protest against the proposed annexation.

WASHINGTON, June 23.—By 17 to 18 the senate Thursday rejected Mr. Jones' motion to suspend the operation of the wool duties for one year.

MILLERS OF KENTUCKY.

By the Wheat Conditions Are Promising. The Wheat Conditions Are Promising.

WASHINGTON, June 23.—The annual meeting of the Kentucky Millers' association was held Thursday in the city of Louisville. About 100 operators of flouring mills were present.

Joseph Leconte, of Lexington, was re-elected president; Smith P. Kerr, of Winchester, was chosen vice president; John L. Logan, of Shelbyville, secretary and treasurer. Much of the time was taken up with a discussion of the situation of business. Said President Leconte to a reporter:

"I find, from the reports of our members, that the outlook for increased business is very fair this year. The wheat yield in Kentucky will be very large. I should say about ten per cent. above an average crop, both in quantity and quality. We discussed the condition of the farmers, who sell their wheat and I find that this plan is just in line with the views of the millers. It will be a great benefit to the farmers 75 cents or 81 a bushel for wheat in the fall and winter than give them 50 cents for it right now."
